Grand Canyon Trek 2009 will begin from the south rim and journey for 6 days and 5 nights through a cross section of the canyon's beauty, geology, and challenges over back county trails. We will explore slot canyons, precipices, chasms, tributaries, waterfalls, and the occasional cave that will never be seen by most hikers.

*This is your opportunity to join an elite group of backpackers and truly have the experience of a lifetime trekking where the crowds don't go!*
